1. (S/NF/SK) TASKING: Monitor received Tasking from OPS OFF on 29 SEP. (see attached)  
Additional information, to wit, future sessions would involve searching both time and space for target / target data.
2. (S/NF/SK) SESSION: Source seemed to achieve immediate, strong site contact - this was maintained throughout the session. Source was particularly attracted to the "windwest" quality of the site; this resulted in AI. Source was concerned about the possibility of AOL drive, with regard to idea of "POW compound", but as this idea arose off only after EI perceptions, monitor feels info to be relevant.

S6 search of "compound" (source's word) was undertaken to find 'things' that source perceived to be meaningful.

S7 produced what might be the word (EASC, asian) AZERBAIJAN

'H' CRV-1 RV-003 30 SEP 86 (cont)

3. (S/NF/SK) SUMMARY: Site is a military compound located in a (geographically) isolated area. It is served by an airstrip. Site ~~provides a~~ <sup>possibly a</sup> ~~function of~~ <sup>function</sup> "guaranteeing" or "keeping out of circulation" a group of men and women.  
(AOL - political prisoners) AD
4. (S/NF/SK) Source was told that his impression of "military compound" was correct and that this site would be worked again.

Site involves an isolated, austere compound, probably  
military, with possible airfield attached. Tall, metal  
structures, probable towers are interspersed at smaller, rectangular  
brownish-green structures. Emphasis is on functionality  
& serviceability, not aesthetics. Compound is surrounded by  
fencing & wires; guards, dog, weapons, lights & watch  
compounds are present. Strong suggestions of  
laborerment, guarding, "quarantine," & strict rules are  
present. AOLs & "political prisoners" & "POW camp"  
interfered.
